Education

University of North Texas (UNT) — Denton, TX

Bachelor of Science in Computer Science

Expected Graduation: May 2028

Relevant Coursework: C++, Calculus I & II, Statistics

Skills

- Communication and teamwork
- Time management and organization
- Customer service and interpersonal skills
- Python and SQL
- FastAPI
- Microsoft Excel, Word, and Google Docs
- Git, GitHub, VS Code, and Jupyter Notebook
- Data analysis and visualization
- Fast learner and adaptable

Projects

Electric Vehicle Adoption Analysis

- Analyzed approximately 270,000 EV registration records from Washington State
- Cleaned and organized datasets using Python
- Created charts and visualizations to identify adoption trends and geographic patterns
- Practiced data analysis, problem-solving, and documentation skills

Expense Data Analysis & Reporting

- Analyzed monthly expense data using Excel and Python
- Calculated totals, averages, and category-based insights
- Generated charts and automated reports

Data Visualizer Web App (Streamlit)

- Built a simple web app for uploading CSV and Excel files
- Added interactive visualizations and downloadable charts
- Improved understanding of user interaction and data presentation

Academic Activities

- Collaborated with classmates on coursework and group assignments
- Managed deadlines and completed assignments on time
- Maintained consistent participation in academic work

Availability

- Available evenings and weekends
- Flexible work schedule during the semester
